Keywords: United States, Pearl Harbor, Balloon

分享到微信

After more than 80 years, , the ,United States once again ushered in the Pearl Harbor moment. ,The Japanese attack on Pearl Harbor at the end of 1941 , was the most important turning point in modern human history. It opened the chapter of the final victory of World War II, , and the United States has since officially entered the stage of world leaders. At that time, US President Franklin ·Roosevelt's attitude of pro-Allies and wanting to participate in the war before the war made the society appear that Roosevelt actually knew that the Japanese army was about to attack Pearl Harbor, but did not warn about the conspiracy theory, which is still full of controversy. ” Whether it was a conspiracy or not, , , it , was extremely difficult to reach a consensus on the attitude of the various parties to the Fascist regime in the United States at that time. The U.S. administration was unable to convince taxpayers ,whether to participate in the war. As a democracy, , this is normal.

There are , a large number of German residents in the United States, although there are not many Japanese, , but the situation is more serious by the fascist brainwashing. All kinds of hostile countries , use American freedom and democracy , to spread all kinds of false information. This has led many Americans to naively believe , that no matter how cruel the Far East and Europe are, , they , can still be outside the two oceanic boundaries.

And the attitude of capital, as always, is attached to evil, , and the illusion can be eaten on both sides and , made war wealth. At this critical moment,, Japan has provided strong evidence and timing in time, , its folly and the price it will pay, , so that the United States can see the 56th of Yamamoto very real, , and let Chiang Kai-shek, , Stalin, , and even the Chinese Communist Party in Yan'an have greatly relaxed their breath, , or think that they can get out of their own wombs, ,,and other pictures, such as Hitler's broken Germany.

The final intervention of the United States , was due to the Pearl Harbor attack that awakened the public, , and the media and the public and the opposition raised the essence of fascism to an irreversible height. Facts speak louder than words, , and appeasement has no way out. From then on, Roosevelt was able to roll up his sleeves , and lead the United States to the outside world, ,and the fate of mankind was thus promising. Please refer to <紧随佩洛西 探访珍珠港>,Browse the latest Pearl Harbor history photos and introductions .

Japan also had balloon invasions against the United States, , but now the protagonist has become the CCP. The world's major media, , including people on the mainland, , are eating melons. The Pentagon 2)announced Thursday that a balloon has entered U.S. airspace. The balloon entered U.S. airspace about two days ago. U.S. intelligence says it has monitored the balloons, and he said it is not the first time the U.S. military has seen such an intrusion. A senior U.S. defense official, speaking on condition of anonymity, told reporters that at the request of President Biden, the Pentagon considered shooting down the balloon, but decided to abandon the plan because of the possible debris posing a risk to people on the ground. But he said: "We have no doubt that this balloon originated in China." The officials also stressed that balloon spying equipment has "limited ability in information collection." It is described as a balloon of considerable size, , with three bus sizes , and the following attachments are 27 meters long. It also said that the balloon currently flies much higher than commercial air traffic, floating about 60,000 feet. This, of course, belongs to U.S. airspace, , not internationally recognized outer space.

Pentagon Press Secretary Patrick·Brigadier General Patrick Ryder on Friday (February 3) categorically denied the Chinese official's claim that “"Chinese civilian unmanned airships mistakenly entered U.S. airspace." “We ……know it’s a reconnaissance balloon ... We also know that it violates U.S. airspace and violates international law.” This is unacceptable. ”U.S. Senator Rubio said the incident should wake Americans up and understand that China has been a geopolitical competitor and adversary of the United States since the end of the Cold War. ““They are actually bigger and stronger adversaries than the Soviet Union, which is a military superpower, but not an industrial, technological or economic power. The rest of this century will be determined by the strategic rivalry between the United States and China and between the two countries, and that the United States “needs to recalibrate what we do in this country based on that reality.” “

Kevin -McCarthy, the Republican speaker of the U.S. House of Representatives, condemned the destabilizing actions of a China that shamelessly ignored U.S. sovereignty. He called on Biden to "not remain silent."Secretary of State Blinken held a joint press conference with South Korean Foreign Minister Park Zhenyu on the afternoon of the 3rd, actively talked about his decision to suspend his visit to China, and repeatedly described the Chinese reconnaissance balloons entering U.S. airspace with the words "violating sovereignty", "violating international law", "unacceptable" and so on. Blinken also reminded,

“I can only imagine how Beijing might react if the CCP replaced us.” The United States has concluded that the conditions are not conducive to a constructive visit (the scheduled visit to China next week)).

The CCP's reaction began with Hu's, , of course, and denied it, , but then it was ""the Foreign Ministry" and was slapped in the face. The CCP admitted that its own balloon was on the wandering earth, , but ""civilian",, it was out of control to encounter the westerly wind , and stray into the United States. But someone then dug it out, , not the first time the Chinese Communist Party came into the United States, , but also in Canada, Japan, India. The Philippines and many countries in South America , have done so more than once. There is also Yamamoto within the CCP, , and it is also trying to make great things happen. Whether it , is the explanation of the United States or the defense of the CCP, , it seems difficult to fully convince people.

There are many doubts, , still waiting to be excavated and analyzed. In the face of the CCP's bold invasion, , some people may think that this is notPearl Harbor, , because so farThe balloon did not kill. Americans will not forget , that the man-made coronavirus has killed more than 6 million people. The United States and the world are holding their breath, ready to calculate the final account!There is no need to trace the source at all, , the time of virus development and the evolution of the epidemic is very clear, , please refer to the old text since the epidemic. All the key evidence of virus manufacturing , is propaganda from the CCP itself, ,and this balloon invasion is no exception. I appreciate the analysis of mainland netizens: the release of the virus in 2019 is due to the previous suspension of virus funding research in the United States; and this balloon is out of control, , which is also the responsibility of the United States. Because the chip was stuck in the neck, , the balloon did not work, , and the United States should apologize first.

As for the military’s refusal to shoot down stray balloons, , it may be waiting for more evidence. But guessing the real reason, , which is the title of this article, The United States has finally arrived at Pearl Harbor.. . Wandering balloons may be the best gift to the civilized world in 2023, , and the opportunities are rare, , and the people of the world will not let go easily. Let the bullets fly! (Reprinted news:2the Month4On Saturday afternoon, U.S. officials announced that they had successfully shot down a spy balloon from China.)

On Saturday afternoon, February 4, U.S. officials announced that they had successfully shot down a spy balloon from China.

Seven forks Archie 2023-2-5 07:41 6 Reply

Good writing of the temple. The United States is very sure to confirm that the Chinese balloon is for military purposes, either the U.S. informants have long had intelligence, or the U.S. military's monitoring system, the detection of the balloon's communication signal is non-military use. The CCP immediately admitted it to being its own balloon, downplaying the rhetoric of civilian use. It shows that they are afraid that the United States may shoot down the balloon, and the balloon has clear evidence that it comes from China. The CCP spy balloon is obviously provocative, and you see, we are also monitoring your every move. Balloons have caused public outrage in American politics, but American politicians have long been generally no longer friendly to the CCP, and there is little difference between one balloon. And people will gradually forget in a few weeks. Pearl Harbor was a planned and premeditated military attack on the United States mainland by Japan and a declaration of war. It was only due to the time difference

that the declaration of war was delayed, later than the attack. And the attack hit the Pacific Fleet, "God bless" the United States, the aircraft carrier is not in port, otherwise the loss is difficult to measure. Pearl Harbor caused the United States to be in agitated, indignant, and the torrent of the anti-fascist war with the enemy. The number of Americans in the war reached 15 million. This balloon can not be compared to the Pearl Harbor incident. The new Cold War began when it was decoupling. Balloons are undoubtedly increasing the hostility of the Cold War.

Since it can control a certain direction and the ability to stop, if the Chinese government can take the initiative to contact the United States to inform the United States of the accident after the discovery of the accident, in order to minimize misunderstandings and jointly deal with the problems with the United States to avoid the cause of the accident and the adverse consequences for the American people, then the above official explanation is basically established, which also shows that it is a responsible big country and is not easy to have malicious doubts.

The United States is very sure to confirm that the Chinese balloon is for military purposes, either the U.S. informants have long had intelligence, or the U.S. military's monitoring system, the detection of the balloon's communication signal is non-military use. The CCP immediately admitted yes.

Thanks for visiting and commenting. The CCP spy balloon incident, there is no actual contrast need for hot war.

"The balloon is undoubtedly increasing the hostility of the Cold War," which is very correct and pushes the Chinese Communist Party to the same place as the Japanese authorities.
Position. It not only completely awakened the United States, but also used contemporary technology to wake up the world.

So the end result is not much different from Pearl Harbor, and we will continue to observe.

Does that mean that China cannot know the location of the balloon before the US announcement?

> 浮平FOSS: Does that mean that China could not know the location of the balloon before the US announced it?

Very likely. Deliberate delay should be in order to get all the data, and finally to ensure that the wreckage can be obtained.

NO_meansNO 2023-2-5 12:39 5 Reply

Agree with the analysis of the blogger.
Although the stray balloon is far less than the attack on Pearl Harbor, it also reflects the stupidity of our party. High-altitude reconnaissance has spy satellites, ground intelligence has Chinese consulate officials, patriotic students, scholars and overseas Chinese, is not enough? The use of stray balloons is more than enough, but also played a counter-effect, what does the party mother want to play with? Have you ever been in high school? Do you not understand tautism?
A spy balloon floating across the sea suspended in U.S. airspace, so that the Americans are obvious to all, give them a free national security lesson, the American people on the harm of the CCP to re-understand, (reasonably suspected that Biden is not in a hurry to put the balloon is to add fire to the incident, not to fried white). It is our party comrades who take up stones and smash their feet and provide negative teaching materials to foreign forces.
Before the bed, the moonlight, suspected to be frost on the ground. Hold your head up and look down at the party. U.S.-China relations are plentiful.

floating 2023-2-5 12:48 7 Reply

> **NO_meansNO** : Agrees with the blogger's analysis.

Maybe you've missed this "scientific" experiment -- you can test whether the United States is ground-to-air or air-to-air technology. The detective is not very important.

If you put thousands of trees, it is a big consumption?

NO_meansNO 2023-2-5 12:57 5 Reply

Using a missile to start a balloon is a big consumption, and then change the way, the drone is fitted with a bamboo straw and stabbed directly.

floating 2023-2-5 13:13 5 Reply

NO_meansNONO_meansNO: Using a missile to start a balloon is a big drain, and then change the way, the drone is fitted with a bamboo stalk and stabbed directly.

The drone can only fly 30,000 feet. Do you use a laser shot at the moon to leak?

Temple of Literature 2023-2-5 13:28 5 Reply

NO_meansNO : Agrees with the blogger's analysis.
Although the stray balloon is far less than the attack on Pearl Harbor, it also reflects the stupidity of our party. High-altitude reconnaissance has spy satellites, ground intelligence has Chinese consulate officials, patriotic students, scholars and overseas Chinese, is not enough?

The U.S. has no additional costs. The use of a spy balloon suspended across the sea in U.S. airspace has set off an education class similar to the Pearl Harbor attack, and even affected thousands of people who may have died in the attack.
Because it is the high-tech era, the powerful public opinion and network effect of the United States has attracted the attention of the world in two days, including the people of the mainland. Such a rapid global mobilization was not available 80 years ago.

What does the mother want to sell? Have you ever been in high school? Do you not understand tautism? A spy balloon floating across the sea suspended in U.S. airspace, so that the Americans are obvious to all, give them a free national security lesson, the American people on the harm of the CCP to re-understand, (reasonably suspected that Biden is not in a hurry to put the balloon is to add fire to the incident, not to fried white). Floating flat: Drones can only fly 30,000 feet. Do you use a laser shot at the moon to leak?

The cost of lasers may be too high. Use low-cost small balloons to track down three school bus-sized spy balloons, with small, cost-effective.

NO_meansNO 2023-2-5 15:35 6 Reply

Temples : The United States does not cost extra money. The use of a spy balloon suspended across the sea in U.S. airspace has set off an education class similar to the Pearl Harbor attack, and even affected thousands of people who may have died in the attack.
Because it's high now.

Countless Americans are usually indifferent to world politics, focusing on beer and ball games, and wives and children are hot. The U.S. government wants to completely ban trembling, but many Americans don't think, it is unexpected that the CCP this time, but Mao proposed to be a reverse teacher, with a spy balloon to appear in the United States to teach a lesson, no zuo no die.
